STATE LAW/REGULATIONS	MEDICAID PROGRAM
Definition of telemedicine/telehealth	
<p>“Telemedicine means use of a telecommunications system for diagnostic, clinical, consultative, data, and educational services for the delivery of health care services or related health care activities by licensed health care professionals, licensed medical professionals, and staff who function under the direction of a physician, a licensed health care professional, or hospital, for the purpose of developing a comprehensive, statewide telemedicine network or education.”</p> <p><i>Source: IA Admin. Comments: A letter from the Department of Human Services addressed to the Elderly Waiver Interim Committee and posted on the Iowa legislature's website indicates that Iowa Medicaid will pay for otherwise covered medical services if rendered via telemedicine **and** if the standard in the medical community would support rendering those services via telemedicine. CCHP has reached out to Iowa Medicaid staff, who have confirmed this practice in Iowa Medicaid, stating that a service rendered via telemedicine must meet the general provisions for Medicaid covered services outlined in 441 Iowa Administrative Code 79.9(2). However, Iowa Medicaid has not published an official telehealth policy.

State of Iowa, Department of Human Services. Letter to the Elderly Waiver Interim Committee regarding Follow up Information to hearing. (December 29, 2008), <https://www.legis.iowa.gov/DOCS/LSA/IntComHand/2009/IHPAF026.PDF> (accessed Jan. 7, 2015).

Iowa conducted a pilot program in 1997-2000 to study the cost-effectiveness of providing telehealth services to Medicaid patients. Few providers participated in the program, and the study found that it was not cost effective.

Office for the Advancement of Telehealth, Telemedicine Reimbursement Report, p. 31-32 (Oct. 2003) (accessed on Jul. 18, 2014).
