

IDEAL LIFE **IDEAL LIFE Interactive Kiosk™**

- In the Community
- Easy To Use
- Unlimited Users
- Real-time reporting of information
- Secure and Reliable
- Simple Implementation

The IDEAL LIFE Interactive Kiosk™ is an elegant and uniquely designed multi-user tool to allow for quick and easy communication of health readings and timely access to health related information. Fully integrated to the IDEAL LIFE Information Management Platform™, the IDEAL LIFE Kiosk offers a unique opportunity to capture health and wellness information remotely, while communicating efficiently with patients, members and consumers across various communal settings such as: gyms, community centers, libraries, schools, employer facilities, living centers, health clinics, physician offices and more.

Specially designed with heavy usage in high traffic areas, the IDEAL LIFE Kiosk is uniquely positioned to quickly identify individuals that must be communicated with while on the go, even outside the home setting.

The IDEAL LIFE Kiosk facilitates two-way communication between consumers and providers of health and wellness programs in a user-friendly manner. With IDEAL LIFE, individuals can experience all the benefits of a personal health and wellness program with convenience.

HOW IT WORKS

1

Reading with IDEAL LIFE Manager

2

Kiosk

3

Healthcare team, family members and individual users

- 1 **Interact with the IDEAL LIFE Kiosk**
 - Simply swipe your card and connect to your personal page
 - Select from a range of interactive options which include readings, educational messages, reports and videos.
- 2 **Take a reading**
 - Select from a number of devices to take a reading and information will automatically be transmitted to a secure information management system. You may even use personal devices.
- 3 **Receive Feedback from Caregivers**
 - A healthcare team, which may include physicians, nurses and/or family members, can access the readings and assist with healthcare decisions
